

Brilliant Environmental Services, LLC (*Brilliant*) is a full-service environmental consulting and contracting firm, integrating today's technologies for tomorrow's solutions. Headquartered in New Jersey, *Brilliant* specializes in investigation, remediation, brownfields redevelopment, and underground storage tank services. *Brilliant* is the underground storage tank compliance expert.

It is almost Labor Day and the unofficial end to the Summer of 2019. Brilliant summer hours will end on Friday, August 30, 2019 and we will return to our standard business hours of 8AM to 5PM, Monday through Friday. Our offices will be closed however on Monday, September 2nd for Labor Day.

Of course, client needs always come first, so in the event you need us outside of these hours call (732) 818-3380 and follow the prompts for assistance.

Governor Murphy Signature Required on SRRA 2.0...Is it?

As of preparation of this newsletter, Governor Murphy had yet to sign A-5293 (identical S-3862) known as SRRA 2.0; the legislative effort led by Senator Bob Smith, stakeholders and the NJDEP. It is intended to implement "lessons learned" in ten years since SRRA was enacted. The Bill was sent to Governor Murphy on June 27, 2019 and he has 45 days to sign the bill into Law or if not signed, it becomes Law on the 45th day or when the Assembly returns to session.

So, using *Brilliant* math, August 12, 2019(excluding July 4th) was the 45th day, as such SRRRA 2.0 will be Law!

Updated Technical Guidance for Preparation and Submission of a Conceptual Site Model

The New Jersey Department of Environmental Protection has announced that the Technical Guidance for Preparation and Submission of a Conceptual Site Model has been revised from Version 1.0 (December 2011) to Version 1.1 (August 2019). The updates to the technical guidance document are minor, including updated references to other guidance documents, new citations to updated rules, and minor language revisions for clarity. For a list of changes, please see the corresponding change log.

The updated Technical Guidance for Preparation and Submission of a Conceptual Site Model and change log can be found on the SRP Guidance Library (www.nj.gov/dep/srp/guidance/). The previous version of this technical guidance can be found on the SRP Guidance Library Archive (www.nj.gov/dep/srp/guidance/archive/).

Do You Want to Open a Child Care Center this September? Start the Process Yesterday!

Child Care Center (CCC) Licensing in New Jersey is much more complicated and costly than other states due to environmental requirements needing to be fulfilled. Since the first regulations were promulgated in 2007, *Brilliant* has conducted about 600 such studies for CCC's.
