It is that time once again, **SUMMER TIME!!!**

Brilliant has started Summer Hours as of Monday, May 24th and they will end on Friday, September 3rd. Our office hours are Monday through Thursday, 7:30AM to 5:15PM, with Friday hours as 8AM to Noon. Of course, as an environmental consulting firm, these are published hours, since we accept calls and emails well outside these hours and will service your needs at any time. For emergencies or immediate attention always call (732) 818-3380 ext. 110 or email [Phil Brilliant](#).

Enjoy and Be Safe!

**[Site Remediation and Waste Management Program](#)
[COVID-19 Webpage](#)**

The Site Remediation and Waste Management Program (SRWMP) has created a COVID-19 guidance webpage summarizing the three Notices of Rule Waiver/Modification/Suspension (Notice) and related listservs that have been distributed to assist the persons responsible for conducting remediation and Licensed Site Remediation Professionals in meeting remediation deadlines. For more information and to review the website, go to [Brilliant Blog on Site Remediation](#).

NJDEP Issues Adoption of Remediation Standards and Updates to Alternative Remediation Standards Technical Guidance

The New Jersey Department of Environmental Protection (NJDEP) has adopted amendments to the Remediation Standards, N.J.A.C. 7:26D. The adoption was published in the May 17, 2021 New Jersey Register (<https://advance.lexis.com>). Courtesy copies of both the adoption and the full amended rule are available on the Site Remediation and Waste Management Program (SRWMP) Remediation Standards webpage (<https://www.nj.gov/dep/srp/guidance/rs/>). The Remediation Standards may be used immediately upon publication; however, there is a six-month phase-in period that may be used in accordance with the rule.

Servicing all of New Jersey

Brilliant can assist with Free Product Recovery and Short Term Remedial Action

The New Jersey Department of Environmental Protection (NJDEP) have been receiving Ground Water Remedial Action Permit (RAP) applications for sites where free and residual product have not been properly remediated in accordance with the Technical Requirements for Site Remediation [N.J.A.C. 7:26E-5.1(e)]. NJDEP states, Active System Ground Water RAP Applications

have included proposals for final long-term remedies for free product recovery in the form of socks/sorbent pads, High Intensity Targeted (HIT)/ Enhanced Fluid Recovery (EFR) events, and/or manual recovery (e.g., bailing) of free product in impacted wells. These methods of free product recovery as per NJDEP are only acceptable as short-term interim remedial measures (IRMs) when source material (i.e., residual product in soil) is being investigated and remediated.

At sites where free product is present, the source area should be fully investigated and remediated. Sporadic recovery of free product is highly effective utilizing *Brilliant's* Multi-Phase Recovery (MPR), also known as HIT or EFR mobile systems, with availability today to assist you with site remedial action assistance. Whether a daily event or longer, *Brilliant* can mobilize to your project site, extract total fluids, with liquid storage of up to 500 gallons and disposal coordination possible. All vapors are treated onsite with our permitted Internal Combustion Engine.

For more information or to schedule an event today, contact [Jon Libourel](#).

BRILLIANT CAN ASSIST YOU!

Brilliant is your advocate in identifying all of the options available to you...not just what's on the surface; affording you high-quality, personalized service without the high cost.
