### **Owner Phil Brilliant Becomes Chairman of the Greater Toms River Chamber of Commerce**

On September 1, 2021, *Brilliant* owner, Phil Brilliant, will take the gavel from Ralph Wolff of Jersey Coast Appliance and become the Chairman of the Greater Toms River Chamber of Commerce. Ralph's leadership along with CEO Danielle Norcross has enable the GTRCC to serve its over 350 member businesses in the greatest of economic challenges of our lifetime. Phil will assume the role at the time when businesses at the Jersey Shore are struggling to maintain enough staff to service patrons and with major changes on the business horizon, mainly a proposed increase in business taxes, legalized cannabis and the recently approved redevelopment plan for

Downtown Toms River. Phil is ready for the challenge.

As a business owner for over 25 years in the Greater Toms River Area, Phil has experienced the highs and lows of business ownership, customer service and the daily challenges and expectation of the business community. Brilliant Environmental's recent recognition by the Environmental Business Journal for *Brilliant's* COVID Resilience and *Brilliant's* ranking of 241 on NJBIZ Top 250 Private Companies List, not only shows Phil's determination to strive for excellence in business, but also his ability to face challenges and solve problems, as he has lead *Brilliant* following it's bankruptcy reorganization of 2019.

We congratulate and wish Phil much success in his new position as the Chairperson of GTRCC and will be here to support his efforts.

### **NJDEP New Guidance Available Regarding Contaminants of Emerging Concerns**

The New Jersey Department of Environmental Protection (Department) Site Remediation and Waste Management Program has posted two documents. The first is Frequently Asked Questions regarding contaminants of emerging concern and is available at <https://www.nj.gov/dep/srp/emerging-contaminants/>. The second document explains how timeframes are affected when a contaminant of emerging concern is detected at an existing case and is available at [https://www.nj.gov/dep/srp/guidance/#contaminants\\_ec](https://www.nj.gov/dep/srp/guidance/#contaminants_ec).

### **NJDEP New Site Remediation DataMiner Reports for UHOT NFA Letters**

New Site Remediation DataMiner Reports Available - Unregulated Heating Oil Tank (UHOT) No Further Action NFA Letters.

The New Jersey Department of Environmental Protection (NJDEP) has created and posted two new DataMiner Reports related to No Further Action letters for unregulated heating oil tank (UHOT) remediations. The two reports, "UHOT NFA Letters Search by PI & Activity" and "UHOT NFA Letters Search by Incident Number," enable the user to search for a No Further Action letter related to a UHOT using the PI number and Activity number or by Incident Number.

All UHOT NFAs from July 1, 2021 forward will be available on the data miner. The NJDEP is currently uploading the UHOT NFA letters from September 2015 to June 2021. If the No Further Action is available, the user will be able to download the letter through the report, thus eliminating the need to conduct an OPRA Request.

The two reports are available in DataMiner under the Site Remediation, Underground Storage Tank Category (<https://www13.state.nj.us/DataMiner/>).

### **Brilliant Sends 4 Teams to the LSRPA Battle at the Beach! Cornhole Tournament on August 26th**

On August 26, 2021, *Brilliant* entered 4 teams in the First LSRPA Cornhole Tournament in Point Pleasant Beach. It was a beautiful night to be on the beach and a better night to be breathing fresh area and talking business and fun after the past long 18 months. The four teams were:

Karen Markey and Phil Brilliant  
Sara Hodl and Tom Adams  
Olivia Morris and Scott Waer  
Kim Libourel and Jon Libourel

Though the teams did not take home any prizes, they looked their best in new tie dyed team shirts compliments of [Trippy Toes Dyes](#). We will be back next year!
